A Sunday Excursion.—A Steamer Instead of the Church.

There was a curious excursion up the Hudson today. The German-Lutheran church of Flatbush, L. I., is undergoing repairs; and the auditorium is so full of scaffolding and carpenters' benches it could not be used for services. Therefore Captain Henry Hoffman, a coal merchant, who is an active member of the church, offered his steamer, Admiral Dewey, as a substitute, and it was accepted by the Rev. Paul F. Jubelt, the pastor. Having arranged to hold services at the usual hour on the steamer instead of in the church building, various suggestions were made and adopted until finally a Sunday excursion was decided upon. Members of the congregation and the public generally were invited to pay \$1 for an all day's journey on the steamer up the Hudson river. The boat started at 10:30 a. m., and the regular service, with a sermon, was held at 11 o'clock. At 12:30 the Sunday school was called to order, and at its close a luncheon was served by the ladies—and sandwiches, cold meats, ice cream, coffee and lemonade. The party returned to Flatbush in the early evening.—Chicago Record.

District court will convene at Chickasha on the 15th of October, with 125 civil and 40 criminal cases now on the docket. Eighteen cases are awaiting the action of the grand jury. The court only holds two weeks and can hardly get through with the business in sight, to say nothing of that to accumulate in the interim before the docket closes.

MOVING DEPOTS

Terminal Purchases the Frisco Buildings and is moving them.

The Oklahoma Terminal Railway has purchased the passenger and freight depots of the Frisco and is removing them to the terminal station grounds at the corner of first and Harvey streets. The freight depot has been cut half in two and will be moved on the streets in segments. The passenger station is being taken down brick by brick and will be rebuilt with some additional rooms when it is placed at its new location. The grading and other work on the road is practically completed and it is only a question of a few days when the road will be in running order and the trains will arrive and depart from the Terminal station. The future of the road is very bright and a number of wholesale houses are considering plans for building along the spur track on Main and First streets.

Everything Knocked Out.

Some time ago when a man wanted a good set of harness it would have to be purchased from a manufacturer where most of the money was sent away from town to pay the manufacturer his long price and the money that was sent off never to come back but now if you buy any thing made of leather of us. You will get a better bargain, better prices and a better article of goods. And better still, we make all of our work in our equipped shop out of better leather and make it better and nicer and the money we pay our men is all spent in Chickasha to uphold our city. The money we pay our men goes to the grocer, the dry goods, and other merchants, and finally comes back to the farmer, and he in the end up he is none the loser in cash, if he buys from us, and has by far the best goods obtainable. We are confident that we produce the best goods in our special lines that are made in the country, and adherence to our claims refer to men who have already made our saddles. The favor with which our goods have been received encourage us to put forth renewed efforts to make them the best on the market, and our greatly increased trade induces us to believe our efforts are appreciated. We constantly place our goods before our customers in competition with the best on the market, believing that when material, style and workmanship are considered we shall not suffer by the comparison. Trusting you will compare our work and give us a trial and we will do our best to give you satisfaction. Asking you to send for our catalogue and call and see us. We are Yours.
